LIFT OFF ON SCHEDULE

T-Minus 48 Hours and Counting

FLIGHT PLAN CONFIRMED - ALL SYSTEMS ON GO!!

On Thursday and Friday, September 24-25, all CHS teachers are requested to report to the Media Center during their planning period to take possession of a new Chromebook, compliments of a Charter Innovation Grant, as we lift off toward new frontiers.

This journey is not about a device, however. We are set to explore how we can harness the power of technology to achieve our Moon Shot Thinking goal of 100% graduation of all Carrollton City School students by 2021.

Early exploration has assured us of the following success formula:

***Student Engagement + Positive, Relevant Learning
Experiences = Increased Student Achievement***

We know this to be a universal truth.

We also know that teacher collaboration across classrooms and even across schools is a necessity if we are to truly unlock the potential within each child. Our goal is noble. We seek to help each child tap into their maximum, not meet the minimum.

Your assigned Flight Crew for this leg of the journey is:

Noah Brewer

Casey Bonds

Desmond Dodson

Stephanie Holloway

These Flight Crew members will be able to assist you with questions and will lead collaborative efforts to discover how your use of expanded technology in the classroom will further support our strategic plan on two fronts; (1) the customization of student learning and (2) professional development for teachers to support student learning.

Let's get ready to take to the skies as we embark on a new journey full of promise for those we teach everyday.

See you on the MOON!

Anna Clifton

Flight Commander

CCS 2021 Mission Control
